

Domestic Rabbit Abandonment

Don't do it!

She'll probably suffer, becoming injured or sick. She may become food for other animals or she may end up as roadkill. Pet rabbits lack the survival skills of wild rabbits.

Rabbits can cause extensive damage to native vegetation and to crops or gardens in the daily struggle to survive.

Pet abandonment is prohibited by law.

Be responsible – do not release your unwanted rabbit.

Contact the Rabbit Advocacy Group of BC for further information or if you need help.
